

RiverGloves

latex surgical sterile
powdered gloves

Traditional comfort and protection

Technical characteristics:

- Made of natural latex. White-transparent color.
- Dusted with absorbable corn-starch powder.
- Microtexturized surface provides safe grip of medical instruments and high accuracy of manipulating.
- Excellent tactile properties in fingers area due to optimal wall thickness.
- Fully anatomical shape with curved fingers reduces muscle fatigue during surgical operations.
- Comply with AQL 1,5 (according to EN 455-1).
- Provide additional protection due to elongated rolled fixing cuff.
- Due to specifically developed washing technology skin-irritating substances and protein content are reduced to the minimum level.
- Easy donning due to powder.
- Sterilized with gamma radiation.

Parameters	Glove size					
	6,0	6,5	7,0	7,5	8,0	8,5
